SUMMARY

Informatics Engineering graduate with hands-on experience in Cybersecurity, Privacy Engineering, and Software Development. Proven track record in designing Public Key Infrastructure (PKI) for IoT firmware verification and building end-to-end PII/PHI redaction pipelines for LLMs. Strong foundation in applied cryptography, ethical hacking concepts, backend integration, and secure software delivery.

EDUCATION

Universitas Dipa Makassar Makassar, South Sulawesi
Bachelor of Informatics Engineering | GPA: 3.85/4.00 2022-2026

EXPIENCE

Infotact Solutions Remote
Cybersecurity Intern June - August 2026

- Completed cybersecurity certification assessment and training covering CIA Triad, cyber threats, networking, malware, and data protection.
- Developed an understanding of ethical hacking principles and attacker perspectives to identify and protect sensitive data.
- Collaborated in Group 3 across a 3-month program and contributed to two cybersecurity projects.
- Project 1 – Secure OTA Firmware Update: Contributed to PKI & Firmware Signing by implementing server-side private key protection and client/IoT-side public key verification with digital signatures. Presented the project during the Final Review.
- Project 2 – Automated PII/PHI Redaction: Contributed to Privacy Engineering and Data De-identification by implementing pseudonymization with Redis, Regex-based PII detection, and Microsoft Presidio with spaCy for name detection. Presented the project during the Midterm and Final Reviews.

PROJECT

Logistics & IoT Edge - Secure OTA Firmware Update & Code Signing Infrastructure June - July 2026
Security Engineering | PKI Engineering

- Designed and developed a secure code-signing pipeline ensuring integrity and authenticity for Over-The-Air (OTA) firmware delivery in IoT environments.
- Built SHA-256 cryptographic hashing mechanisms paired with ECDSA asymmetric key pairs to enforce server-side digital signing and client-side signature verification.
- Documented end-to-end cryptographic workflows and threat vectors, mitigating firmware tampering and man-in-the-middle (MITM) attacks during distribution.

HealthTech - Automated PHI/PII Redaction Pipeline for LLMs July - August 2026
Data Security | Privacy Engineering | Sensitive Data Detection | Data De-identification

- Architected an automated data de-identification and pseudonymization engine to sanitize sensitive clinical text before transmission to external Large Language Models (LLMs).
- Implemented multi-layered entity detection combining Microsoft Presidio, spaCy NLP, and custom Regex patterns to detect names, phone numbers, emails, dates, and national IDs (Aadhaar/PAN)
- Integrated Redis to manage high-throughput, bidirectional token mapping, enabling reversible de-identification that restores clinical responses while strictly maintaining patient privacy.

CERTIFICATE

- TOEIC - Mery English [\[TOEFL English\]](#)
- Public Speaking - SPEAKUP Academy HUB [\[Certificate\]](#)
- Entrance Test – Infotact Solutions [\[Certificate\]](#)
- Training – Infotact Solutions [\[Certificate\]](#)
- Internship – Infotact Solutions [\[Certificate\]](#)

SKILL

Soft Skills	: Indonesian (Active), English (Passive), Team Work, Communication, Public Speaking
Program	: Dart, Python
Framework	: Flutter, FastAPI
Databases	: MySQL, MongoDB, Firebase, Supabase
Tools	: Visual Studio Code, Android Studio, Drawio, Cursor.ai, Odoo, Docker, Git
Others	: Microsoft Word, Microsoft Excel, Google Docs, Google Sheets, Google Slides

SUMMARY

Fresh Graduate of Informatics Engineering with practical experience in Microsoft Excel, Microsoft Word, and Microsoft PowerPoint through a Microsoft Office Specialist Bootcamp and various academic and professional projects. Skilled in data processing, data analysis, documentation, reporting, presentation development, and administrative support. Experienced in processing transaction and consumer datasets using Excel, creating Pivot Tables, Pivot Charts, KPI reports, dashboards, automated categorization, and VBA-based automation. Also experienced in preparing structured documentation and project materials using Microsoft Word and communicating analytical results through PowerPoint presentations.

EDUCATION

Universitas Dipa Makassar

Bachelor of Informatics Engineering | GPA: 3.85/4.00

Makassar, South Sulawesi

2022-2026

TRAINING

KarirNex – Research & Career Training

Jawa Barat, Bandung

Microsoft Office Specialist Bootcamp

August 2026

- Practical training in Microsoft Excel, Word, and PowerPoint.
- Applied Excel for data processing, analysis, Pivot Tables, Pivot Charts, KPI reporting, dashboards, and VBA automation.
- Developed structured documents, reports, and presentations using Microsoft Word and PowerPoint.
- Completed a practical portfolio covering Excel Data Analysis, Word Documentation, and PowerPoint Presentation.

PROJECT

Microsoft Office Portfolio — Karirnex

August 2026

Microsoft Excel | Microsoft Word | Microsoft PowerPoint

- Practical Microsoft Office portfolio covering Excel data analysis, Pivot Tables, dashboards, VBA automation, Word documentation, and PowerPoint presentations.
- [\[Github\]](#) [\[Documentation\]](#)

CERTIFICATE

- TOEIC – Mery English [\[TOEFL English\]](#)
- Public Speaking - SPEAKUP Academy HUB [\[Certificate\]](#)
- Bootcamp – KarirNex Research & Career Training [\[Certificate\]](#)
- Recommendation Letter - KarirNex Research & Career Training [\[Certificate\]](#)

SKILL

Language	: Indonesian (Native) English (Passive)
Soft Skill	: Team Work, Communication, Public Speaking
Microsoft Office	: Microsoft Excel, Microsoft Word, Microsoft PowerPoint
Excel & Data	: Data Entry, Data Cleaning, Data Analysis, Formulas & Functions, Pivot Tables, Pivot Charts, KPI Reporting, Dashboard Development, VBA Macro
Documentation & Reporting	: Microsoft Word, Business Documentation, Report Preparation, Presentation Development
Other Tools	: Google Docs, Google Sheets, Google Slides, Odoo, Visual Studio Code,

MY PROFILE

Fresh Graduate of Informatics Engineering with a focus on Flutter Mobile Development. Experienced in building end-to-end mobile applications using Dart and Flutter, from UI development and state management to backend and database integration. Familiar with BaaS services like Firebase and Supabase, as well as MySQL and MongoDB databases in developing modular and scalable applications.

EDUCATION

Universitas Dipa Makassar

Bachelor of Informatics Engineering | GPA: 3.85/4.00

Makassar, South Sulawesi

2022-2026

EXPERIENCE

Digital Economy with Cloud ERP (Odoo) – MSIB Batch 7

PT Ctech ERP Indonesia

Makassar, South Sulawesi

September – Desember 2024

- Collaborated on an Odoo Online implementation project for a partner, PT Rasa Nusantara Group.
- Odoo has numerous modules, including Sales, Point of Sale System, Purchasing, Inventory, Manufacturing, Accounting, Website, E-commerce, and Human Resource Development (HRD).
- Prepared supporting project documents, including Blueprints, UAT, Manual Books, Testing Scenarios, and Master Data.
- I took on the role of the Manufacturing module.

Bandara Otoritas V Makassar

IT Support

Makassar, Sulawesi Selatan

Februari – Maret 2025

- Routinely check the office network signal
- Provide supporting equipment for meeting rooms
- Check work equipment (printers and computers)

PROJECT

Booking Doctor

Back-End Dart | Flutter, Dart, Firebase

May – June 2025

- Developed backend logic and Firebase integration for a doctor booking application.
- Implemented booking and data management flows using Flutter and Dart.
- Collaborated on a team-based academic mobile app project.

[\[Aplikasi\]](#) [\[Github\]](#) [\[Dokumentasi\]](#)

Rekomendasi Kost SAW

Back-End Dart | Flutter, Dart, Supabase

November – Februari 2026

- Developed application logic and Supabase integration for a boarding house recommendation application.
- Implemented the Simple Additive Weighting (SAW) method for a recommendation system.
- Collaborated on a thesis-based mobile application development project.

[\[Aplikasi\]](#) [\[Github\]](#) [\[Dokumentasi\]](#)

CERTIFIKAT

- TOEIC – Mery English [\[TOEFL English\]](#)
- Digital Economy with Cloud ERP (Odoo) – MSIB Batch 7 [\[MSIB #7\]](#)

KEAHLIAN

Soft Skills : Indonesian (Active), English (Passive), Team Work
Program : Dart
Framework : Flutter
Databases : MySQL, MongoDB, Firebase, Supabase
Tools : Visual Studio Code, Android Studio, Drawio, Cursor.ai, Odoo
Others : Microsoft Word, Microsoft Excel, Google Docs, Google Sheets, Google Slides
